PART THREE: SITUATION OF INTEGRATION

Model Paragraph / Production Example:

One of my most cherished childhood memories is my first day in primary school. I was very nervous at first, but meeting my kind neighbors helped me feel safe and confident. Looking back, those simple days shaped my personality: today, I am a curious, optimistic, and resilient person who loves facing new challenges. As for my future expectations, I aspire to become a successful architect so I can design creative and sustainable spaces for people. I truly believe that our past memories give us the strength to achieve our future dreams.
